SKILLS

Programming: R, C++, Python, Excel (advanced modeling), data analysis, Quarto, LaTeX, Overleaf, SQL

Technical: Statistical modeling, regression analysis, Monte Carlo methods, data mining

AI & Data Tools: AI assisted data analysis (including R based chatbots), prompt engineering, workflow automation

Tools: Microsoft Office Suite (Excel, PowerPoint, Word), Adobe

Other: Financial modeling, market research

COURSEWORK

Probability, Mathematical Statistics, Data Analysis & Regression, Design of Experiments, Data Mining, Computational Statistics, Statistical Consulting, Text Mining, Applied Sampling, R Programming, C++ Programming, Management

LANGUAGES

English (Native), Spanish (intermediate proficiency)

PROJECTS

Statistical Modeling of Fashion Industry Success

Statistical Computing & Data Projects, UCLA:

- Predictive modeling
- Regression & Classification
- Data Visualization

Interactive Pet Voting Platform

VOLUNTEER WORK

Camp Kanata (CILT, CIT, Counselor) – Complete 9+ weeks of leadership training and staff service
